

Song Genre Classification

Team Details:

Anand Pathak 13D070019

Rishabh Iyer 13D070008

Himanshu Pandora 13D070037

Pakshal Bohra 130110008

The main file is called ML.py and there is another file in the code folder called ML_functions.py which contains the feature extractor.

Both the files should be kept in the same folder as the dataset.

Classifiers used -> SVM, Neural Networks, KNN, Random Forests

Only the part corresponding to the SVM is uncommented in the code. Please uncomment the other parts to run the other classifiers.
